They are in the Hands of Secretary Day, and Will Be Submitted Tomorrow.

WASHINGTON, July 28.—It is said that the president's answer to the peace proposition to Spain is in the hands of Secretary Day, and will be handed to the French ambassador tomorrow. The latest is that it contains unlimited freedom to Cuba, the cession of Porto Rico, and the disposal of the Philippine question by negotiations.

NEW KLONDIKES MAY BE DISCOVERED

It is Thought to be Only the Beginning of the Golden Harvest—Rich Discoveries on Stewart River.

TACOMA, July 28.—Important developments today give new and even more dazzling aspect to the Klondike situation. Information brought by persons of unquestioned reliability seem to show that the world has seen only the beginning of the golden harvest in the frozen north. A new Klondike has been discovered and it is believed that in the vast territory of Alaska and the British northwest many more Klondikes are to be uncovered by the prospector's pick. Fully 5000 prospectors and miners are already tearing up the banks of the streams, sinking shafts and cross-cutting with great success. On Coal creek the deposits of coal will be of great value in working the diggings, and will expedite work by melting the frozen earth. Edwin F. Lang, of Haverhill, Mass., one of the returned miners, says that the coal deposits found are scarcely less valuable than the gold mines. The scene of the greatest excitement at present is in the Stewart river country. This includes a large territory drained by Stewart river and many tributary streams, among the latter being Clear creek and Coal creek. The developments in this region tend to indicate that the yield of Dawson City district may be duplicated, and perhaps exceeded.

VOLUNTEERS REFUSE TO FIGHT

Spanish Volunteers Would Not Enter Battle Against Miles' Army—Revolt Caused by Unpopularity of the Spania Commander.

St. Thomas, D. W. I., July 29.—A mutiny is reported in the Spanish forces at Ponce. The Spanish volunteers have refused to enter battle against Miles' invading army. This accounts for the successful advance the Americans are said to be making. The revolt is said to be caused by the Spanish commander at Ponce being very unpopular with the volunteers.

ARRIVED WITH MORE GOLD

The Portland Reaches San Francisco With \$200,000—Reports Said to Have Been Greatly Exaggerated.

SAN FRANCISCO, July 29.—The steamer City of Portland arrived last night from St. Michaels with seven Klondikers and about \$200,000 in treasure. Only one of the Klondikers had any gold. E. H. Lewis, from Circle City, with \$25,000; the balance belonging to the Alaska Commercial Co. Lewis states that the reports favorable to Alaska have been grossly exaggerated. There are miles of Bonanza creek without a color, and only three miles of Eldorado is profitable.

REBELLION IS ABOUT ENDED

New Dynasty Proclaimed in the Province of Kwang Si by Li Yap Yan, The Rebel Leader.

LONDON, July 28.—The Hong Kong correspondent of the Daily Mail cabled the following: The viceroy of Canton has announced to the foreign office the complete suppression of the rebellion in those districts. He has announced also that four cities have also been recaptured by the imperial troops. The Hong Kong correspondent of the Times says: Li Yap Yan, the leader of the rebellion in the province of Kwang Si, has proclaimed a new dynasty styled, "Vast Progress." His proclamation, he says, was issued because a great and pure dynasty is weak, because the mandarins are oppressive and the foreigners are taking Chinese territory. He has rebelled, and heaven has signified its approval by causing several cities to fall into his hands. According to a telegram from Wuchow the city of the Wungun, has been captured and one thousand rebels have been slain. The rebellion in Kwang Si province is almost quelled.

WHOLE GANG EXTERMINATED

Good Work By Deputy Sheriffs in Running Down Cattle Thieves.

KANSAS CITY, Mo., July 27.—A special to the Star from Eufala, Indian Territory, says: In two distinct battles with deputy sheriffs, a gang of outlaws and cattle thieves who have been disturbing the Cherokee nation for a long time was destroyed. The first fight occurred about six miles east of Checotah, and resulted in one outlaw, a half-breed Cherokee, named Petit, being mortally wounded; David Greathouse, an ex-member of the French gang, was slightly wounded and captured, and one Cowhorn was also captured. Later the rest of the gang was intercepted near Bragg's agency by Deputy Marshal Ledbetter and a posse, and all the outlaws were killed. These latter were, Goldsby, a brother of Cherokee Bill, Mose Sharp and the famous Picaloo Bill.

NO VESSELS TURNED AWAY

Shafter Reports Only Three Have Arrived at Santiago—They Paid Duty and Landed Their Cargoes Afterward.

WASHINGTON, July 28.—Having made a query in regard to the ships being turned away from Santiago, the war department yesterday made public the following response from Shafter: "Santiago, via Hayti, July 26.—Adjutant-General, Washington: Press reports not true. I only know of three ships having arrived, one from Kingston, the others from the United States. The Bratton has sold its cargo; the other, a ship from New Orleans, has sold only part. The captain tells me he is going away tonight. The trouble is they do not expect to pay any duty, and arrived here without money. The Spanish customs as applied to a Spanish subject only have been collected, and twenty cents per ton as ordered.

"I discovered this morning an attempt on the part of the municipality to collect a tax of 40 cents per 100 kilos, in this instance amounting to \$2500. I had settled the matter by ordering its non-collection. There is no money here to do business, and the merchants are very timid about making purchases, fearing the effect of the Red Cross supplies, which really are feeding the town. The New Orleans man, for instance, brought 29 head of cattle, which he sold at \$55 per head. The person buying kills one a day, selling the meat at 20 cents per pound. Of course only a few people buy. The first week or more here people were starving to death, and I think a few now are dying from the effects of starvation. SHAFTER, Major-General."

VESSEL NOT A BLOCKADE-RUNNER

The French Embassy Asks for the Release of the French Prize, the Olinde Rodriguez.

WASHINGTON, July 28.—The French embassy has called the attention of the state department to the circumstances connected with the seizure of the French merchant steamship Olinde Rodriguez, and has requested the immediate release of that steamer. The action was taken simultaneously with a protest from the French Transatlantic Steamship Company against the seizure. The state department has submitted all the papers in the case to the department of justice, with a view to getting an opinion on the legal questions involved.

YELLOW JACK IS SPREADING

Four Thousand Cases Reported in Shafter's Army—Disease Will Probably Run Its Course—Thousands of Cubans Returning to Plantations

CHICAGO, July 27.—A special to the Inter Ocean from Santiago says that over 4000 mild cases of yellow jack are reported among the soldiers in General Shafter's army. The sick are given the best of care and fatalities are very few. It now seems probable that the disease has to run its course through the whole army. Everything possible is being done to improve the sanitary conditions of the city.

The Cubans who were driven into exile by the Spanish oppression are returning by thousands to the plantations which were desolated by the Spanish and insurgent troops.

Appeals have been made to General Shafter daily by both the Cuban and Spanish residents of prominence for the United States to establish a sound government over the island in order that peace and prosperity may once more be the portion of that country.

Robbed the Grave. A startling incident of which Mr. John Oliver of Philadelphia, was the subject is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them.

DEWEY'S WARSHIPS AFTER SOME SPANISH CRAFT

The Raleigh and Concord Sent to Gather up Eleven Vessels, Including Seven Gunboats, at Various Points.

NEW YORK, July 28.—A cablegram from Hong Kong to the Journal says: Admiral Dewey, at Manila, has dispatched the Raleigh and Concord to gather up eleven Spanish craft, which according to information sent him by Consul-General Williams, are at various places in the Philippines. Among these vessels are three gunboats at San Miguel, Luzon island, and four at Port Royal, Palawar island. Four merchantmen with cargoes of tobacco are reported at Cayagan, Luzon.

The same dispatch reports that the English traders at the coal mines at Batan, Luzon island, have been imprisoned and subjected to ill treatment otherwise by the Spaniards there.

THE BOAT RAILWAY. Right of Way for The Dalles Improvement Has Been Secured.

It has been several months since anything was mentioned concerning the boat railway at the Dalles, says the Oregonian. It is learned at the war department that the right of way has been about all acquired, and now arrangements are in progress between the government and the railroad company for the purpose of adjusting the differences existing, so that a complete right of way can be established. There are many officials in the war department, however, who believe that a boat railway will never be built, and that if any improvement is made at The Dalles it will have to be by the construction of a canal and locks. Although engineers have passed upon the feasibility of a boat railway, there are yet many who doubt its practicability or success as a permanent improvement. A canal and locks would always be a permanent improvement, and would cost much less for operation than a boat railway.

WASHINGTON, July 28.—The war department this morning received a dispatch from General Brooke, at Newport News, dated last night, saying he was aboard a transport and would sail for Porto Rico this morning. Nothing further has been heard by the department from either Brooke or the commanding officer at Newport News.

No further news regarding the movements of General Miles and his forces in Porto Rico has reached the war department. It is thought no important movements or operations will be undertaken until after the arrival of General Brooke and his army upon the scene, when, unless an armistice is meanwhile declared, the campaign against San Juan and the entire island will be actively prosecuted.
